

## ELIGIBLE WORKERS' COMPENSATION CLASSES

*The following table of classifications is not complete. If you have additional codes, for instance those that apply to employees manufacturing parts or components for your contracting business, they may also be available. This table includes those traditional contracting codes (generally starting with a "5" or "6") which we can write while it excludes those we cannot (for example 5552 & 5553 roofing). If you don't see one of your codes in this table, please email [jmulligan@insurancelink.com](mailto:jmulligan@insurancelink.com) if you want to confirm whether or not we can write the classification.*

<b>Code</b>	<b>Description</b>
0042	Landscape Gardening
2584	Carpet, rug or upholstery cleaning
2806	Door, Sash, Window, Shutter Manufacturer
2812	Cabinet Manufacturing - Wood
